1. On the basis of my investigation concerning [REDACTED] performance during the past several years, I do not see any future career for him in a Branch Chief capacity in your Division. Nor do I see any career for him where the work responsibilities involve substantial working relationships with other personnel. I cannot at this time recommend him for promotion to the GS-14 Branch Chief position which he is currently occupying on an acting basis.

2. In view of my findings concerning his deficiencies in the human relations field, I recommend that you take immediate steps to remove [REDACTED] from his current Acting Branch Chief status and place him in technical work which does not involve critical relationships with individuals.
